DETAILED ACTION

Response to Arguments/Remarks

1. Applicant's arguments, see pages 9, filed on February 16, 2005, with respect to claims 1, 8-9, 11, and 13-26 have been fully considered and are persuasive. The rejections of claims 8-9 and the objections of claims 1, 8-9, 11, and 13-26 have been withdrawn.

Allowable Subject Matter

2. Claims 1-26 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest, alone or in a combination, among other things, at least a frequency hopping wireless communication apparatus and a method of controlling frequency hopping wireless communications between first and second frequency hopping wireless communication devices as a whole, the combination of elements and features, which includes determining by the first device, a first frequency of a predetermined frequency hopping pattern is better than a second frequency of the predetermined frequency hopping pattern for transmission of a selected communication from the second device to the first device wherein the second frequency is specified for the selected communication and the first frequency is determined for the selected communication from the second device to the first device that most closely precedes in time the selected communication

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
